READ CAREFULLY

TERMS OF SALE

1. Auction sales ARE NOT approval sales. Read these terms carefully. By submitting bids you agree to the terms set forth below. All coins have been classified by experts and while errors will be gladly corrected NO LOT MAY BE RETURNED WITHOUT WRITTEN PERMISSION. Request to return coins MUST BE MADE WITHIN THREE DAYS OF RECEIPT OF COINS.
2. All bids are to be by LOT as numbered in the catalogue. When identical bids are received, preference is given to earliest bidder.
3. This is a UNRESTRICTED PUBLIC AUCTION. All bids are entered as received and highest bidder will be the buyer. Mail bidders may feel free to submit any bid they wish and each lot will be purchased for such bidders at the next highest bid over room bidders.
4. Bidders must establish credit or have on deposit 25% of TOTAL bids.
5. Lots will be available to room bidders after each session.
6. Mail bidders will receive their lots promptly after the end of the sale. All ACCOUNTS MUST BE SETTLED PROMPTLY IN U.S. FUNDS, or in other currencies if special arrangements have been made.
7. Lots delivered in New York City are subject to 3% Sales Tax.
8. There will be no charge for executing bids but postage and insurance will be added, and a handling charge for heavy lots and books.
9. Where estimates are given they represent either the owner's idea of value or our professional opinion as to what they should bring. IN ANY EVENT THEY ARE ONLY ESTIMATES AND YOU CAN BID HIGHER OR LOWER. We recommend however, if you want the lot, bid close to or over estimate, this does not mean that our estimate is too high. It only means that the coin is not popular among collectors and few people compete for it. The estimates are what the **coin should be worth**.

CABLE ADDRESS "NUMATICS, NEW YORK CITY, U. S. A."

10. All coins are genuine and as described.

FOREWORD

It is with pride that we offer the Howard D. Gibbs collection of obsidional (siege) necessity and counterstamped British coins, with additions. Howard a collector for the past 50 years is the most outstanding collector in the cut and counterstamped series; and his English series are but a fraction of his cut and counterstamp collection.

But... the English series are outstanding and we do not know of any other collector having such a rich series of Scottish counterstamps as does Howard. It is a unique occasion for the Collector to obtain these items—in such a large selection, they do not again come on the market.

BANK OF ENGLAND COUNTERSTAMPED COINS

In the later part of the eighteenth century England was suffering for the lack of silver coins as none except the four pence had been struck for some years. There was on hand however, large quantities of Spanish and Spanish American silver coins. In 1797 it was determined to counterstamp these coins with the head of King George III in a deep oval. For this purpose the Goldsmith's Hall stamp was used. In the rush to get these coins into circulation 2,325,099 dollars were so counterstamped. However many of the silver coins were stamped by individuals to such an extent that the Bank of England was forced to call in all the OVAL COUNTERSTAMP coins which would no longer be current after October 31, 1797. Never-the-less, this oval stamp was again used in January 1803. In 1804 it was determined to use a larger stamp and the head of George III IN AN OCTAGON was adopted. For full details see Davis-Gibbs.

MALTA

Having specialized for over fifty years in the collection of copper coins I found the fine condition copper coin of Scotland and the Island of Malta were the hardest to obtain. The following coins were selected from more than 500 varieties because they were in such unusual condition and because they had been counterstamped for use by subsequent rulers.

BRITISH OCCUPATION OF IONIAN ISLANDS 1809-1813

When the British under General Campbell seized the Islands headquarters were established on the Island of ZACYNTHOS (Now Zante) there was an army of some 11,000. While there was an abundance of large silver and gold coins there was very little small silver. Small silver, mostly worn coins of the Two Sicilies were first counterstamped with the values "25" "30" "50" and "60". Since these numerals were easily counterfeited General Campbell had punches prepared bearing the head of King George III. For full details see "Numismatist" Feb. 1959.

|-----|--|----------|
| 471 | French rule , Louis d'or 1721 of Louis XV. Type of Friedberg (France) page 99. 200 (\$100). Friedberg lists as dates for France 1720 and 1722 because 1721 was struck for Canada by the French John Law Company. Many experts do not consider these Canadian coins but in our research with the Curator of the museum on the Island of St. Louis in Montreal, we came to the definite conclusion that this is Canadian money. Shortt in his "Archives" "Change and Finance" explains the background of these coins. Bust is V. F., rev:—is V. F. but lettering on left side rubbed off. Still a very attractive coin. | (175.00) |

JOHN LAW ISSUES OF CANADA IN SILVER AND COPPER

The special French series from 1719-1723 were struck for Canada and has been clearly proven from the Canadian Archives on "Exchange and Finance" as reviewed by Shortt and also accepted by several Canadian numismatists. However, there are some who do not feel that these coins are struck per se for Canada but will agree that these were legal tender in Canada. We are sure after consultation with French numismatists that the 1719-1723 issue was made for Canada.
